MBA in Telecom Management
Indian Institute of Technology, Delhi
August 2016 – May 2018

B.Tech in Computer Science
Guru Gobind Singh Indraprastha University, Delhi
August 2010 – May 2014

Professional Summary

Senior Full Stack Developer with 9+ years of experience building enterprise banking applications using **Java, Spring Boot, and React.js**. Experienced in designing **microservices-based architectures, REST APIs, and scalable UI platforms** supporting loan origination and financial systems. Proven ability to deliver high-quality software in Agile environments while collaborating with cross-functional teams.

Professional Experience

Senior Software Engineer
Maybank, Bangalore
February 2021 - Present

- Led full-stack development of a **Loan Origination System** using ReactJS and Java, collaborating with product owners to design scalable banking workflows.
- Built responsive UI components using **ReactJS, JavaScript, HTML5, and CSS** to streamline internal loan processing operations.
- Developed **RESTful APIs and backend services using Java, Spring Boot, and Hibernate**, integrating React applications with Oracle databases.
- Managed the **end-to-end development lifecycle**, from requirement analysis to production releases in Agile sprints.
- Contributed to the design of microservices-based architecture supporting loan lifecycle workflows and banking integrations.
- Participated in **CI/CD deployment pipelines using Jenkins and Git-based version control**.

Technologies:
ReactJS, JavaScript, jQuery, Java, Spring Boot, Hibernate, Oracle DB, Jira, Agile

Business Solution Engineer
Maybank, Bangalore
June 2018 – January 2021

- Led UI development for the **Loan Prospecting platform**, translating business requirements into modern web interfaces.
- Built interactive front-end modules using **ReactJS, jQuery, HTML5, and CSS3**.
- Developed backend APIs using **Java and Spring Boot** to support application workflows.

Certifications

- **International Management and Industry 4.0**
  HHL Leipzig Graduate School of Management, 2017
- **Green Belt in Lean Six Sigma**
  KPMG
- **R Programming**
  Johns Hopkins University, Coursera
- **Finance and Banking Fundamentals**
  Finitiatives Learning India Pvt. Ltd.

Additional Information

- **Problem Solving (Basic)**
  HackerRank, September 2020

- Designed data models and documentation supporting application architecture and integrations.
- Collaborated with cross-functional teams to deliver features within Agile development cycles.

Technologies:
ReactJS, Java, Spring Boot, SQL, jQuery, JSP, JUnit, HTML5, CSS3, WebLogic

Systems Engineer
Infosys Ltd.
June 2014 – August 2016

- Developed UI components for an **Investment Banking CRM application** using AngularJS and ExtJS.
- Participated in the full **software development lifecycle**, including design, development, testing, and deployment.
- Built reusable front-end components and enhanced application usability.
- Mentored new developers on the AngularJS-based client UI framework.

Technologies:
AngularJS, ExtJS, HTML, CSS, Git, Jira
